Admission Policy

<What SOKENDAI expect of our grad students>

The Graduate University for Advanced Studies, SOKENDAI, seeks students who have a strong interest in research, who constantly hone their abundant intellect and sensitivity with the aim of conducting research that will open up a new era, while taking a “bird's-eye view” of the entire field of study, and who have the will and enthusiasm to be active on the international stage.

<Basic policy for the selection of our grad students>

In selecting students for admission, SOKENDAI places importance on basic academic ability and logical thinking ability to actively promote research in the cutting-edge 20 research institutes affiliated to SOKENDAI. In order to properly judge such abilities, various selections will be made according to the respective fields of specialization.

- (1) Any personal information including applicant's name and address submitted to SOKENDAI as part of the application documents shall be used during the application process such as applicant/examination procedures, notification of results and admission procedures. After enrollment, personal information shall also be used for student affairs (school register and course registration), student services (health care, tuition exemption and scholarship application, and career support) and administrative purposes of processing payments for entrance and tuition fees.
- (2) Personal information obtained in the screening process such as examination results, shall be used for aggregate analyses of examination results and research for use in the screening process.

Important Notes for Applicants to Space and Astronautical Science Program (Five-year Doctoral Program)

The Space and Astronautical Science Program provides students with comprehensive research guidance in space science (mainly astrophysics and solar system sciences) using space vehicles as well as in astronautical engineering, where research and development are being conducted on advanced space technologies that will lead to practical space development.

A distinctive characteristic of this course is to cultivate not only a rich knowledge of space science but also the ability to plan space projects by involving students in the world's most advanced large-scale projects.

Through a program of structured education and research, we are focusing on cultivating leaders who, from a highly specialized and international perspective, will take up cutting-edge research in future space sciences and will support the development and utilization of the entire aerospace field by applying what they have learned.

1. Applicants who wish to enter the course must contact the academic advisor they wish to work with and discuss their intended research topic and plan (e.g., use of long-term student system, etc.) before submitting their application, while referring to the Application Guidelines. The academic advisor chosen by applicants should be a professor or associate professor except a special case. If you wish to select an assistant professor as your academic advisor, please contact "6. Contact details for inquiries" in advance.

Applicants may apply for up to their second choice from the Astronomical Science, Fusion Science, Molecular Science, Materials structure Science, Basic Biology, and Physiological Sciences programs. However, since the selection is conducted for each program, please pay attention to each examination schedule and venue.

2. Selection Method

Screening is conducted by examining submitted documents, results of a written examination (day one) and the interview (day two). The interview will apply to all applicants taking the written examination.

1) Paper screening:

Application documents including the transcripts are examined.

2) Written examination:

(i) English: There is no specific test. Instead, presentation of the TOEFL-iBT or TOEIC Listening and Reading Test score report is required.

The details of score requirements, etc., are as follows.

- Scores must be reported regardless of whether the applicant has Japanese nationality or Japanese language ability.
- Only scores of a test conducted within two years before the application deadline will be accepted.
- The application cannot be accepted if the score is not greater than or equal to 61 (TOEFL-iBT), or 586 (TOEIC).

Submission of other certification of your English skills* may be accepted as an alternative to TOEFL

or TOEIC. For details, please contact “6. Contact details for inquiries” in advance.

*Reference: IELTS Academic Module: 5, Cambridge English: PET, PTE Academic: 40

- When submitting a TOEFL score, applicants may either have the Official Score Report sent directly to the SOKENDAI Student Affairs Section by the application deadline, or enclose a copy of the Test Taker Score Report (formerly, Examinee Score Report) with the application documents. If a copy of the Test Taker Score Report is submitted, applicants must bring the original, whose copy was submitted with the application, on the day of examination.
- When submitting a TOEIC score, one of the following documents listed below must be enclosed with the application. However, those who enclose a document with an asterisk ‘*’ in the table shown below must bring the original one (if screen printed, official certificate, Test Result, etc.) of on the day of the examination.

Type of TOEIC	Document to be enclosed
Open Test	Official Score Certificate Printout of Digital Official Score Certificate (PDF) * Copy of Official Score Certificate * Printout of Internet display of the result
IP test	Score Report * Copy of Score Report
IP test(online)	Printout of Test Result (PDF) * Printout of score screen

- Those who have enclosed a copy of the TOEFL Test Taker Score Report or a document with an asterisk ‘*’ of TOEIC shown above must submit the original on the day of examination when instructed by the person in charge. It will be returned on the day of examination after being photocopied. Please be advised that if the applicant fails to present the original, he/she will not be considered for admission.

(ii) Specialized subjects: Specific examinations are administered.

- Mathematics: 10:30 – 12:00 (90 minutes)
A total of 2 questions on calculus and algebraic geometry
- Physics: 13:00 – 14:30 (90 minutes)
A total of 2 questions on classical mechanics and electromagnetism

3) Interview:

- At the interview, 5 minutes are allocated for the presentation while another 10 minutes are for a question-and-answer session. The presentation must focus on the applicant’s motivation for their application to this course, the research that the applicant wishes to conduct as well as his/her future goals, with presentation materials (slides) of around 3 pages (excluding the front page). A question-and-answer session will be conducted based on the contents of the presentation, submitted documents, and the applicant's answers in the written examination.
- Please prepare a document summarizing the presentation (within 500 words) in addition to the presentation material to be used in the interview. The logical structure should be described clearly in this

summary, similar to an abstract of a thesis.

- Please send one copy each of the presentation summary and the presentation materials to be used in the interview by simple registered mail to the address in “6. Contact details for inquiries” by August 15 (Thursday), 2024 (as indicated by the postmark). Be sure to clearly state “presentation materials for interview” on the front of the envelope.

Any submission after the deadline, or by any methods other than that mentioned above, such as hand-carrying the material directly to the contact address written in “6. Contact details for inquiries”, will be considered invalid, regardless of the reason.

3. Criteria for grading, evaluation and admission decision

The admission decision will be made by comprehensively examining results of submitted documents, the written examination and the interview. We pay due consideration to whether the applicant:

- has clear ambitions and an active spirit of academic inquiry as well as strong motivation for research.
- has the basic academic skills required to conduct research as well as application skills and the ability to construct discussions in a logical manner.
- has good communication skills that enable him/her to accurately explain ideas and to adequately conduct question and answer sessions.
- is able to conduct research with high standards of ethics.

4. Application of foreign students

Foreign students are requested to contact “6. Contact details for inquiries” by the Application Period for Qualification Screening, as they may need to go through additional procedures. If you do not contact us in time, you may not be able to take the test.

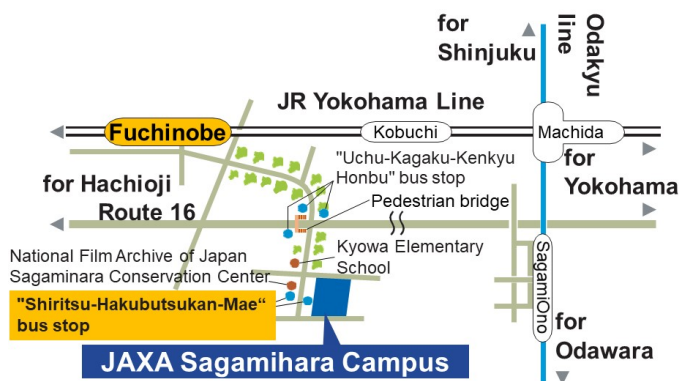

5. Financial Support Program

There are financial support programs for students such as a Research Assistant (RA) program. A special scholarship program has been conducted since the October 2017 enrollment. Please inquire for further information.

Important Notes for Applicants to Space and Astronautical Science Program (Three-year Doctoral Program)

The Space and Astronautical Science Program provides students with comprehensive research guidance in space science (mainly astrophysics and solar system sciences) using space vehicles as well as in astronautical engineering, where research and development are being conducted on advanced space technologies that will lead to practical space development.

A distinctive characteristic of this course is to cultivate not only a rich knowledge of space science but also the ability to plan space projects by involving students in the world's most advanced large-scale projects.

Through a program of structured education and research, we are focusing on cultivating leaders who, from a highly specialized and international perspective, will take up cutting-edge research in future space sciences and will support the development and utilization of the entire aerospace field by applying what they have learned.

1. Applicants who wish to enter the course must contact the academic advisor they wish to work with and discuss their intended research topic and plan (e.g., use of long-term student system, etc.) before submitting their application, while referring to the Application Guidelines. The academic advisor chosen by applicants should be a professor or associate professor except a special case. If you wish to select an assistant professor as your academic advisor, please contact “6. Contact details for inquiries” in advance.

Applicants may apply for up to their second choice from the Astronomical Science, Fusion Science, Molecular Science, Materials structure Science, Basic Biology, and Physiological Sciences programs. However, since the selection is conducted for each program, please pay attention to each examination schedule and venue.

2. Selection Method

Paper screening (including test of English) and interview.

1) Paper screening

We examine the transcripts from the Master's course, application forms as well as the Master's thesis and its supplemental materials.

(If you are a prospective graduate of the Master's course and cannot submit a Master's thesis at the time of application, please submit it to the address written in “6. Contact details for inquiries” when it is ready, after sending other application documents.)

2) Test of English

There is no specific test. Instead, presentation of the TOEFL-iBT or TOEIC Listening and Reading Test score report is required.

The details of score requirements, etc., are as follows.

- Scores must be reported regardless of whether the applicant has Japanese nationality or Japanese language ability.

- Only scores of a test conducted within two years before the application deadline will be accepted.
- The application cannot be accepted if the score is not greater than or equal to 61 (TOEFL-iBT), or 586 (TOEIC).

Submission of other certification of your English skills* may be accepted as an alternative to TOEFL or TOEIC. For details, please contact “6. Contact details for inquiries” in advance.

*Reference: IELTS Academic Module: 5, Cambridge English: PET, PTE Academic: 40

- When submitting a TOEFL score, applicants may either have the Official Score Report sent directly to the SOKENDAI Student Affairs Section by the application deadline, or enclose a copy of the Test Taker Score Report (formerly, Examinee Score Report) with the application documents. If a copy of the Test Taker Score Report is submitted, applicants must bring the original, whose copy was submitted with the application, on the day of examination.
- When submitting a TOEIC score, one of the following documents listed below must be enclosed with the application. However, those who enclose a document with an asterisk ‘*’ in the table shown below must bring the original one(if screen printed, official certificate, Test Result, etc.) on the day of the examination.

Type of TOEIC	Document to be enclosed
Open Test	Official Score Certificate Printout of Digital Official Score Certificate (PDF) * Copy of Official Score Certificate * Printout of Internet display of the result
IP test	Score Report * Copy of Score Report
IP test(online)	Printout of Test Result(PDF) * Printout of score screen

- Those who have enclosed a copy of the TOEFL Test Taker Score Report or a document with an asterisk ‘*’ of TOEIC shown above must submit the original on the day of examination when instructed by the person in charge. It will be returned on the day of examination after being photocopied. Please be advised that if the applicant fails to present the original, he/she will not be considered for admission.

3) Interview:

- At the interview, 20 minutes are allocated for the presentation while another 20 minutes are for a question-and-answer session. The presentation is expected to focus on the applicant’s ambitions for future research as well as his/her plans and goals, while also including details of the Master’s thesis or its equivalent. The question-and-answer session will be conducted based on the contents of the presentation and submitted documents.
- Please prepare a document summarizing the presentation (within 500 words) in addition to the presentation material (slides) to be used in the interview. The logical structure should be described clearly in this summary, similar to an abstract of a thesis.
- Please send one copy each of the presentation summary and the presentation materials to be used in the interview by simple registered mail to the address in “6. Contact details for inquiries” by the deadline

below (as indicated by the postmark). Be sure to clearly state “presentation materials for interview” on the front of the envelope.

Submission Deadline		
First round	October 2024 Admission	August 15 (Thursday), 2024
	April 2025 Admission	
Second round	April 2025 Admission	January 7 (Tuesday), 2025
	October 2025 Admission	

- Any submission after the deadline, or by any methods other than that mentioned above, such as hand-carrying the material directly to the contact address written in “6. Contact details for inquiries”, will be considered invalid, regardless of the reason.

3. Criteria for grading, evaluation and admission decision

The admission decision will be made by comprehensively examining results of paper screening (including test of English) and the interview. We pay due consideration to whether the applicant:

- has clear ambitions and an active spirit of academic inquiry as well as strong motivation for research.
- is able to design an appropriate research plan.
- has the basic academic skills required to conduct research as well as application skills and the ability to construct discussions in a logical manner.
- has good communication skills that enable him/her to accurately explain ideas and to adequately conduct question and answer sessions.
- is able to conduct research with high standards of ethics.

4. Application of foreign students

Foreign students are requested to contact “6. Contact details for inquiries” by the Application Period for Qualification Screening, as they may need to go through additional procedures. If you do not contact us in time, you may not be able to take the test.

5. Financial Support Program

There are financial support programs for students such as a Research Assistant (RA) program. A special scholarship program has been conducted since the October 2017 enrollment. Please inquire for further information.
