School of Physical Sciences, SOKENDAI

Note to Applicants for the entrance examination (3-year Doctoral program)

In response to the current situation of the COVID-19 pandemic, the entrance exams in January 2022 will be conducted online.

The schedule (Friday, Jan. 21, 2022) has not been changed.

We will have a connection test for the applicants and the examiner nearly a week prior to the examination, to avoid any troubles on the examination day.

More details and the test schedule will be sent to you by email later. Please make sure to set up your e-mailer to receive email from @jaxa.jp and do not forget to check your email regularly.

There are two things you need to prepare before the connection test:

- 1) Install zoom to the device you would use for the exam, and learn how to use it.
- 2) Prepare camera, microphone and speaker that can be connected to the device of 1).

If you have questions, please do not hesitate to contact us.
